

WMPC Network Contract Performance Outcomes

Fiscal Year 2025 Quarter 3
July 30, 2025

WMPC Quarterly Performance Report

Addressing Safety, Permanency, and Well-being for Children in Foster Care in Kent County

West Michigan Partnership for Children (WMPC) is a nonprofit organization in Kent County that is facilitating a performance-based funding model through a contract with the Michigan Department of Health and Human Services (MDHHS). The performance-based funding model is intended to improve outcomes for children and families; allow for the effective allocation of resources to promote local service innovation; create service efficiencies; and incentivize service providing agencies to be accountable for achieving performance standards. This report outlines performance measures that indicate how the WMPC network is achieving the intended outcomes.

Safety, Permanency, and Well-being are the three goals of the Federal Child and Family Services Review (CFSR) and are best interest principles for the West Michigan Partnership for Children foster care network. To oversee progress toward these principles, WMPC internally monitors over 30 measures governed by three primary entities; Modified Implementation, Sustainability, and Exit Plan (MISEP) Key Performance Indicators (KPIs), Federal Child and Family Service Review (CFSR) Performance Outcome Measures, and WMPC Network Contract Measures.

MISEP Key Performance Indicators

Children's Rights, the State of Michigan, and the MDHHS have worked together since 2006 to reform Michigan's child welfare system. The initial Implementation, Sustainability, and Exit Plan (ISEP) was originally submitted in 2008, and in 2019, the MISEP was introduced to replace it. The Key Performance Indicators (KPIs) outlined in the MISEP establish benchmarks and standards for measures that address children's safety, permanency, and well-being while in care. The benchmarks have been updated to align with the KPI benchmarks in the MISEP, ensuring consistency with statewide goals. Along with these adjustments, WMPC continues to be held accountable for all state Key Performance Indicators.

Federal Performance Outcome Measures

These measures correspond with the Children's Bureau data measures outlined in the Child and Family Service Reviews (CFSRs), or reviews of state's child welfare systems, to see progress toward federal standards and engage systems in improving families' experiences. WMPC receives County and consortium data measures aligned with CFSRs. Similarly to MISEP, permanency benchmarks were revised to include incremental yearly increases. WMPC continues to be held accountable for all Federal Child and Family Services Review data measures.

WMPC Network Contract Measures

The WMPC network also implements additional internal performance measures. These measures are centered around the impact foster care has on children and families and are related to residential and shelter utilization, increasing community, in-county, and relative placements, and licensing more relative and non-relative foster homes. Furthermore, the network carries out a comparison study with other similar Counties like Oakland.

FY25 Contract Performance Measures

At the beginning of FY2025, WMPC's contract benchmarks were aligned to match the MISEP benchmarks. Contract includes the following thirteen measures: 1. Well-being: (a) Medical-Initial, (b) Medical-Periodic, (c) Dental-Initial, (d) Dental-Yearly, 2. Permanency: (a) Worker-Parent Visit, (b) Parent-Child Visit, (c) Return Home Visit, (d) Sibling Visit, (e) Permanency within 12 Months for Children Entering Care, 3. Safety: (a). Licensed Unrelated Foster Homes, (b) Initial Service Plan Timely Completion, (c) Service Plan Approval and Maltreatment in Care.

WMPC Quarterly Performance Report

Race and Children in Foster Care

Children in Care

In FY2025 Q3, there were more White children (44%) in care than any other race. This was followed by Black/African American (37%). This is consistent with FY2025 Q2.

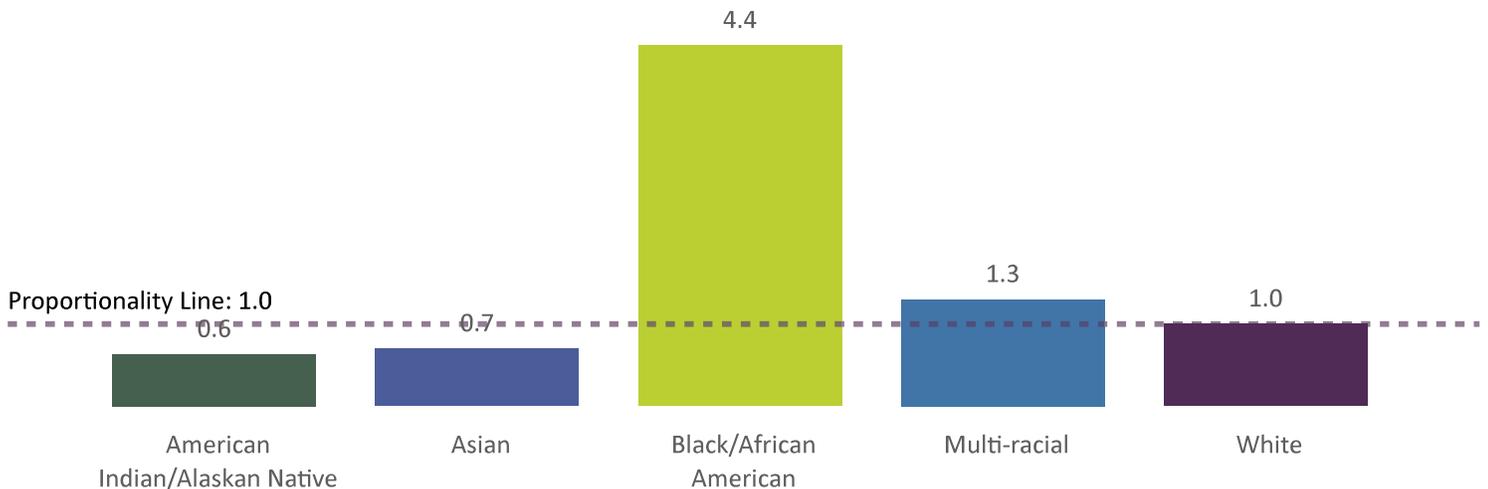

Racial Disproportionality

We used **Relative Rate Index (RRI)** to determine underrepresentation or over representation of a racial or ethnic group. RRI provides a comparison of each racial or ethnic group to a reference group. In this case, the reference group is White children since they are the majority group in Kent population of Children. To calculate RRI, we used the population demographics of Children in Kent County of ages (0-18) from US Population Census. **An RRI of 3 for some race implies that the race is 3 times more likely than White children to be in care.**

Racial Disproportionality: Children in Care

In FY2025 Q3, Black/African American children were the most over-represented race in care at WMPC. Black/African American children were represented 4.4 times more in the active population in the WMPC network than White children. This is more than FY2025 Q2, which represented 3.9 times that of White children in care.

WMPC Quarterly Performance Report

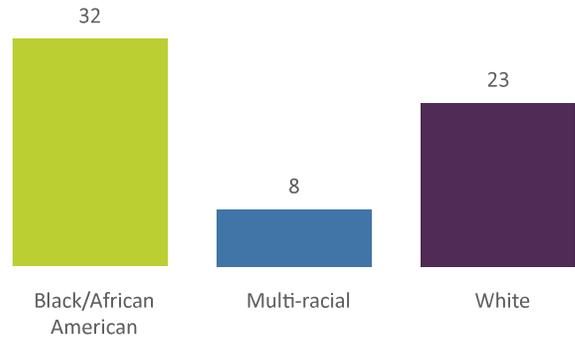

Race and Children in Foster Care Intakes and Exits

Entries in Care

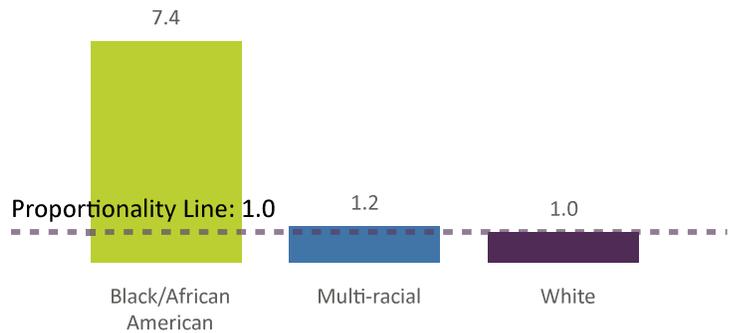

63

In FY2025 Q3, 51% (32 out of 63) of the children entering care at WMPC were White and Black/African American. This shows a 35% decrease compared to FY2025 Q2, where 86% were White and Black/African American children.

Relative Rate Index of Entries

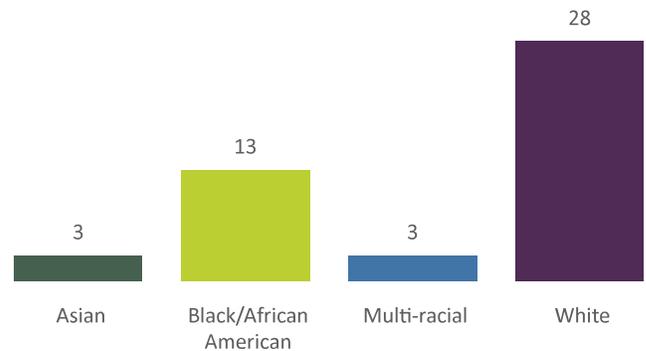

Black/African American children entered care at WMPC at a rate 7.4 times higher than that of White children in FY2025 Q3. This contrasts with FY2025 Q2, where Black/African American children entered the WMPC network at a rate of 5.4 times to that of White children.

Exiting Care

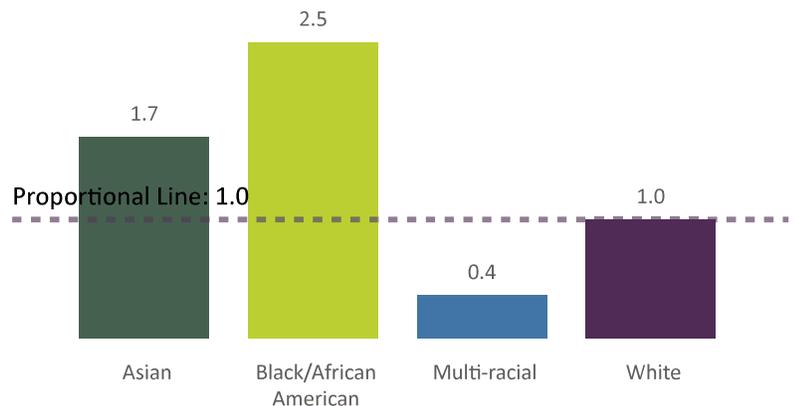

47

In FY2025 Q3, 60% of children exiting care at WMPC were White. This represents a 13% higher rate compared to FY2025 Q2 at 47%.

Relative Rate Index of Exits

Although, Black/African American children entered care at a rate of seven times that of White children, they exited the WMPC network at a rate of at least two times higher than that of White children.

WMPC Quarterly Performance Report

Contract Key Performance Indicators

The WMPC Network met contractual requirements for one of thirteen measures and this was for Child-Sibling. This performance was less than that of FY2025 Q2, where only four of twelve contract requirement was met. However, WMPC surpassed or met State averages in 7 of 12 measures.

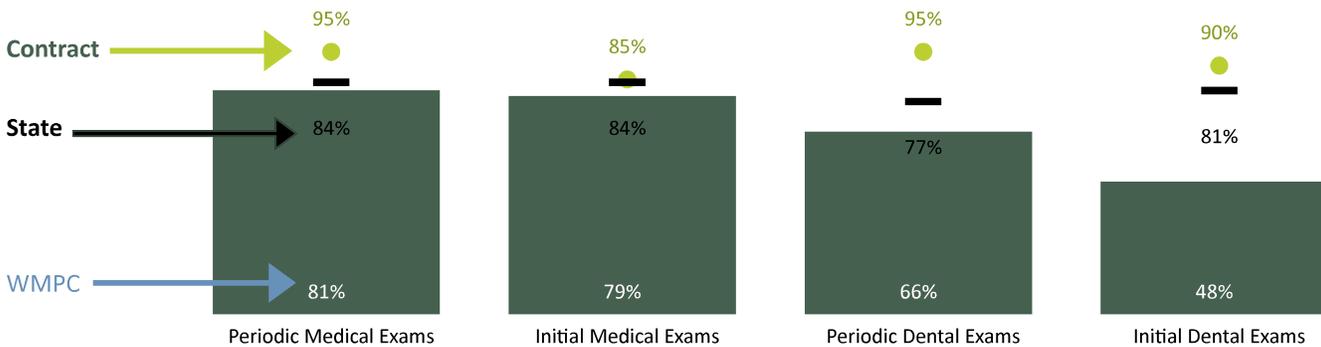

Permanency Performance Outcome Measures

The WMPC Network met the contract requirements for one of the five Permanency measures. This is for Child-Sibling. Note: State average for Permanency in 12 Months is 17%.

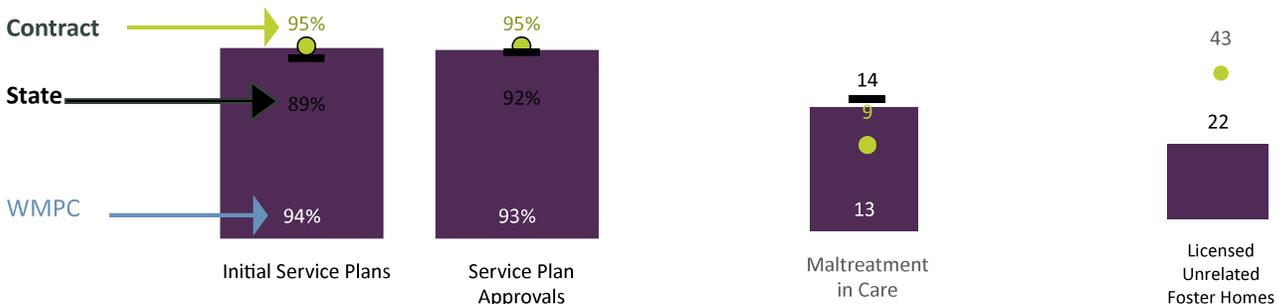

Well-being Performance Outcome Measures

The WMPC Network did not meet any contract requirements related to well-being measures, nor did it meet or exceed the state average for any well-being indicators.

Safety Performance Outcome Measures

The WMPC Network did not meet any contract requirements under the Safety measures but did meet or exceed state averages for Initial Service Plans, Service Plan Approvals, and Maltreatment in Care. Please note that for Maltreatment in Care, a lower rate reflects better performance. Additionally, the benchmark for Licensed Unrelated Foster Homes is evaluated on an annual basis.

WMPC Quarterly Performance Report

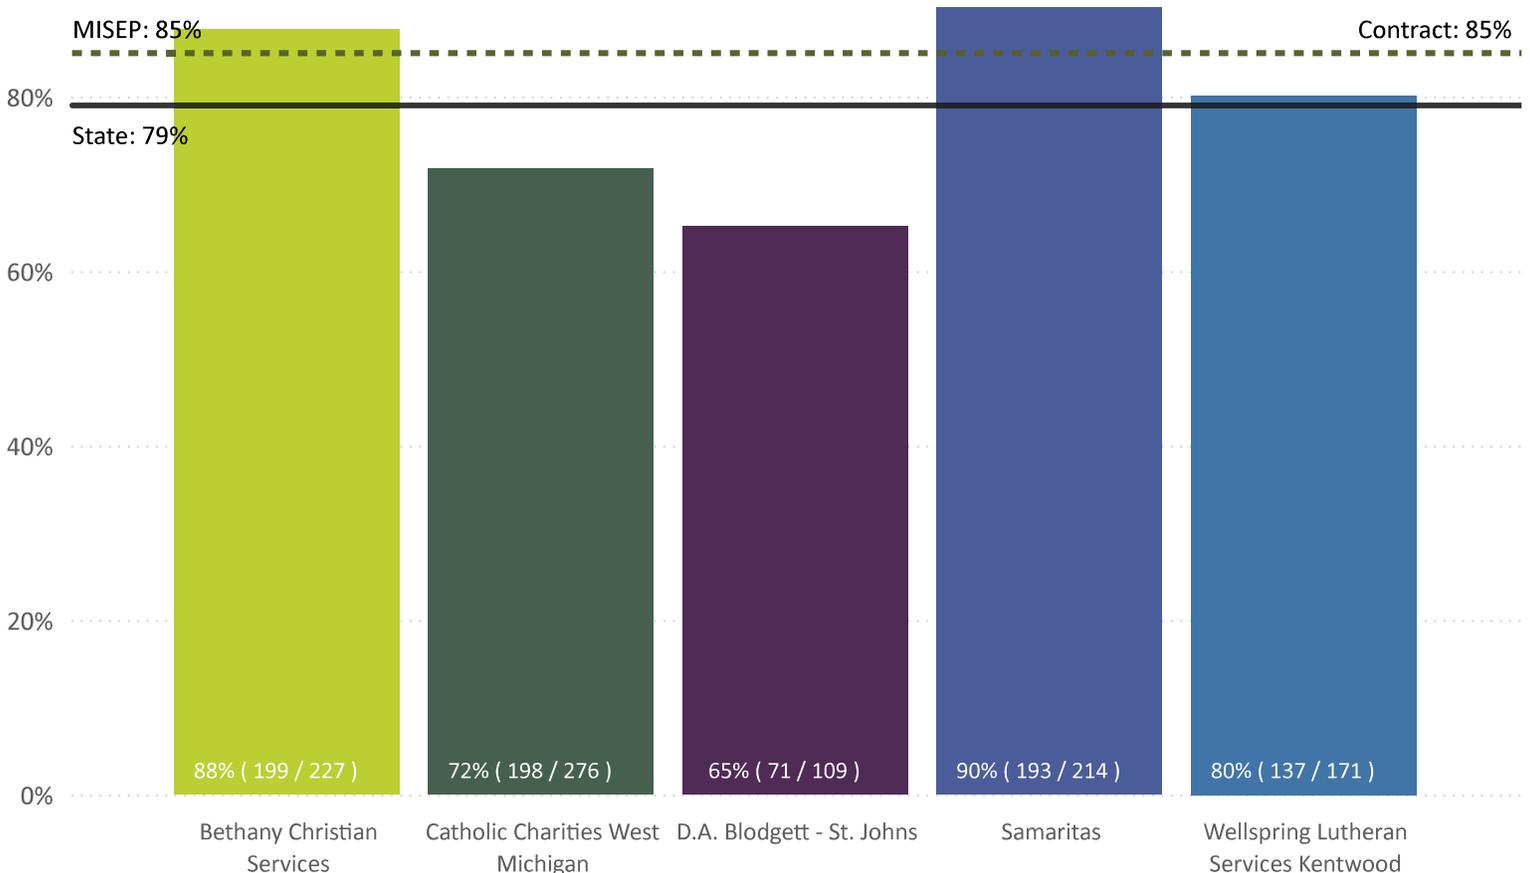

Worker-Parent Contacts

MISEP | Measure Definition: At least 85% of parents whose children have a permanency goal of reunification shall have face-to-face contact by the assigned caseworker in accordance with the guidelines in FOM 722-06H, which states the caseworker must have at least two face-to-face contacts with the legal parent or guardian, with at least one contact occurring at the parent or guardian's home or living environment, during the first month following initial out-of-home placement. In subsequent months the caseworker must have face-to-face contact with the legal parent or guardian at least once per calendar month. At least one contact each quarter must occur in the parent's residence.

WMPC Contract Amendment | Measure Definition: At least 85% of parents whose children have a permanency goal of reunification and are supervised by the Service Provider, shall have face-to-face contact by the assigned caseworker in accordance with the guidelines in FOM 722-06H by the end of FY2025.

Quarter 3 Performance

Eighty percent (80%) of parents for the network were visited in accordance with MISEP contract requirements. WMPC did not meet the Contract benchmark of 85% but surpassed State average of 79%. On this measure, D.A. Blodgett - St. John's and Catholic Charities West Michigan did not meet the State average. FY2025 Q3 performance of 80% is better than that of FY2025 Q2 of 76%.

State Performance: CSA Monthly Management Report, June 2025 Prior 3 Months

WMPC Quarterly Performance Report

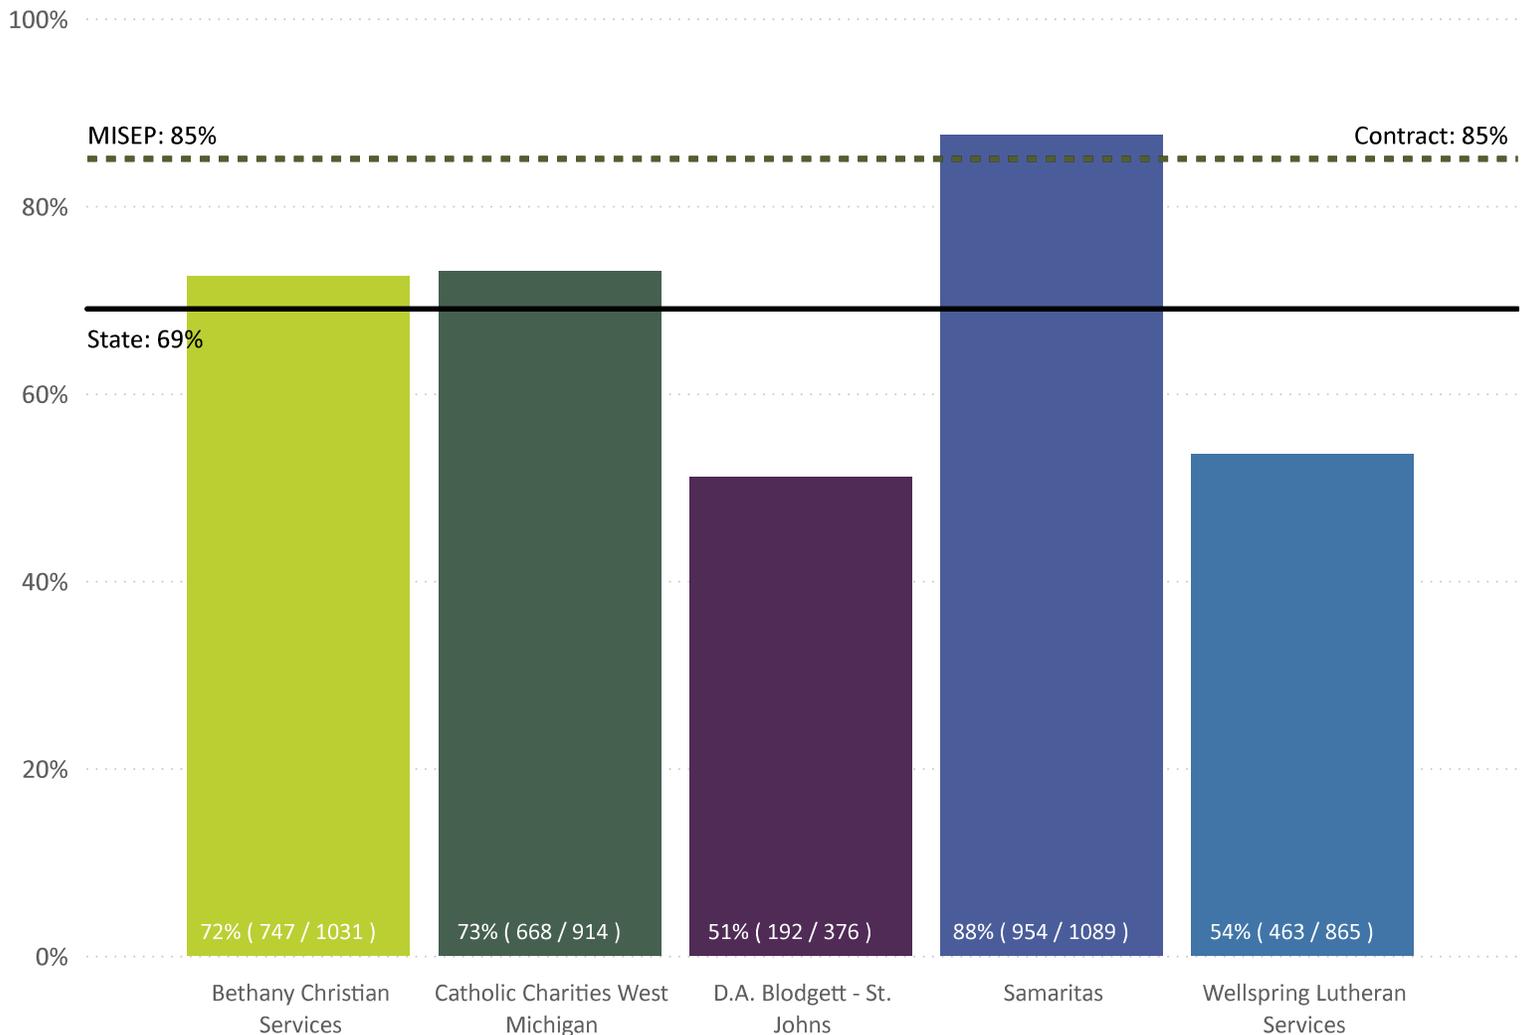

Parent-Child Contacts

MISEP | Measure Definition: No fewer than 85% of children with a goal of reunification shall have visitation with their parent(s) in accordance with Children's Foster Care Manual (FOM) 722-06I Policy. Parenting time is determined by the age of the youngest child of the sibling group in care at the time of removal. If the youngest child entered care between 0-5 years old, parenting time must occur twice per week. If the youngest sibling entered care at 6 years or older, parenting time must occur weekly.

WMPC Contract Amendment | Measure Definition: At least 85% of children with a goal of reunification shall have visitation with their parent(s) in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Sixty one percent (71%) of children with a goal of reunification had parent visits in accordance with MISEP and contract amendment requirements. WMPC network did not meet the Contract benchmark of 85%. However, WMPC exceeded the State average of 69%. Only Samaritas exceeded both the contract benchmark and the state average, consistent with its performance in FY2025 Q2. WMPC performance of 71% for FY2025 Q3 is less than that of FY2025 Q2 of 77%.

FY2025 Q3

Source: MiSACWIS Infview KC-2006 CFC Social Work Contacts Timeliness by Agency, Accessed 6/2025;
State Performance: CSA Monthly Management Report, June 2025, Prior 3 Months

WMPC Quarterly Performance Report

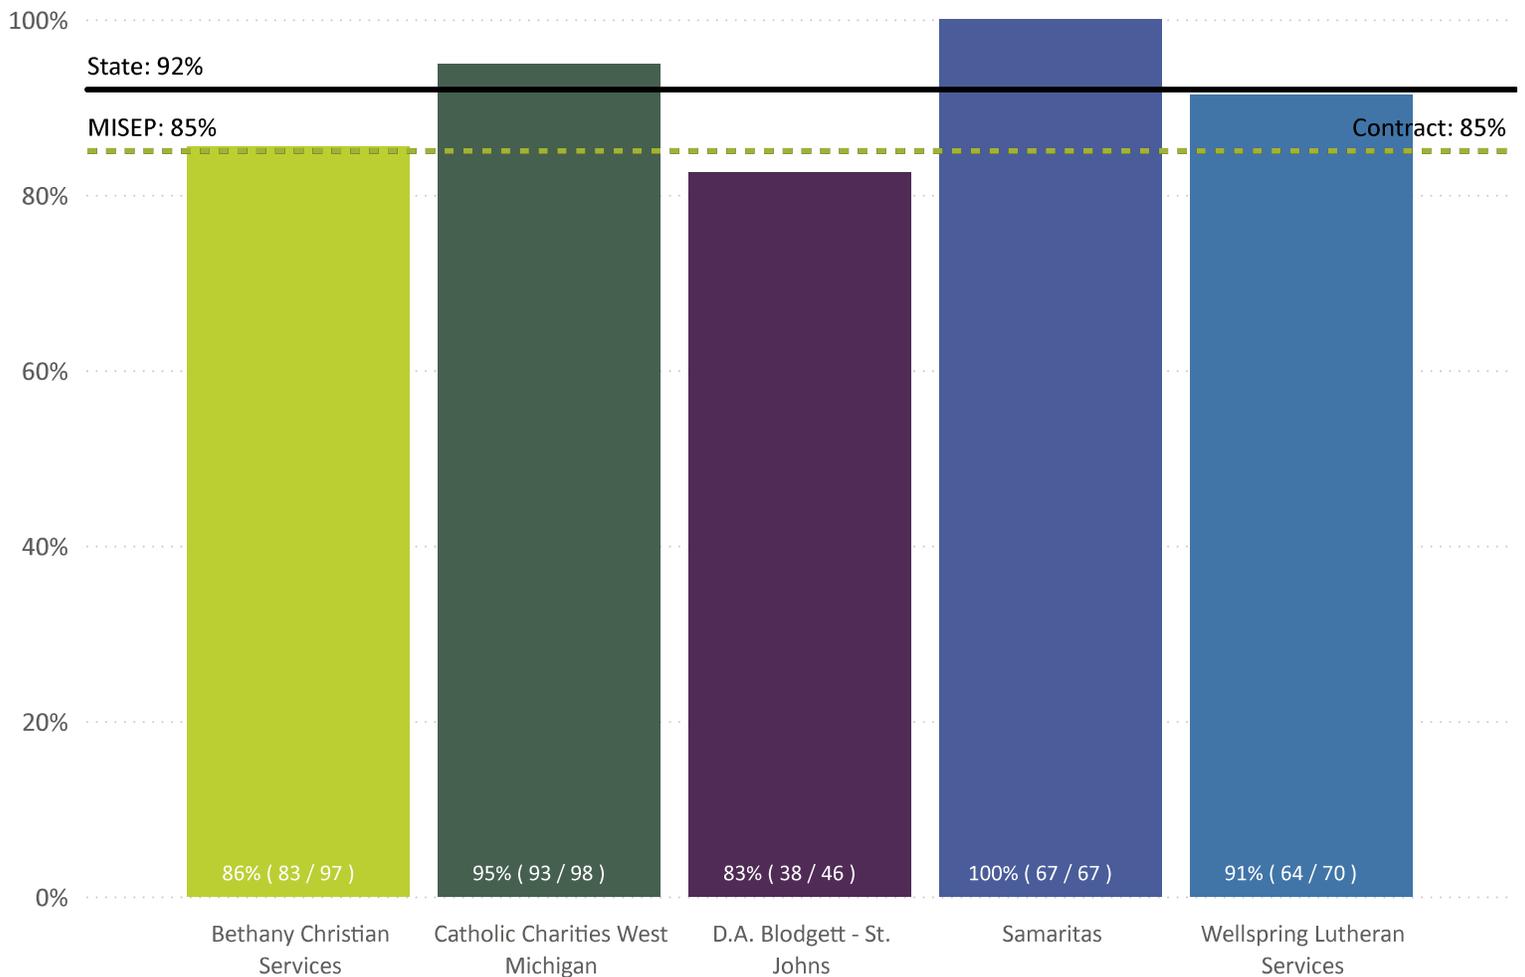

Child-Sibling Contacts

MISEP | Measure Definition: At least 85% of children in foster care who have siblings in custody with whom they are not placed shall have at least monthly visits with their siblings who are placed elsewhere in DHHS foster care custody, unless specified exceptions apply.

WMPC Contract Amendment | Measure Definition: At least 85% of children in foster care who have siblings in custody with whom they are not placed shall have at least monthly visits with their siblings in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Ninety one percent (91%) of children had sibling visits in accordance with MISEP and contract amendment requirements. WMPC performance on this measure exceeded the Contract benchmark of 85%. In addition, WMPC network performance exceeded MISEP benchmark. Throughout all fiscal quarters of FY2025, WMPC consistently met or exceeded contract requirements for Child-Sibling placements.

WMPC Quarterly Performance Report

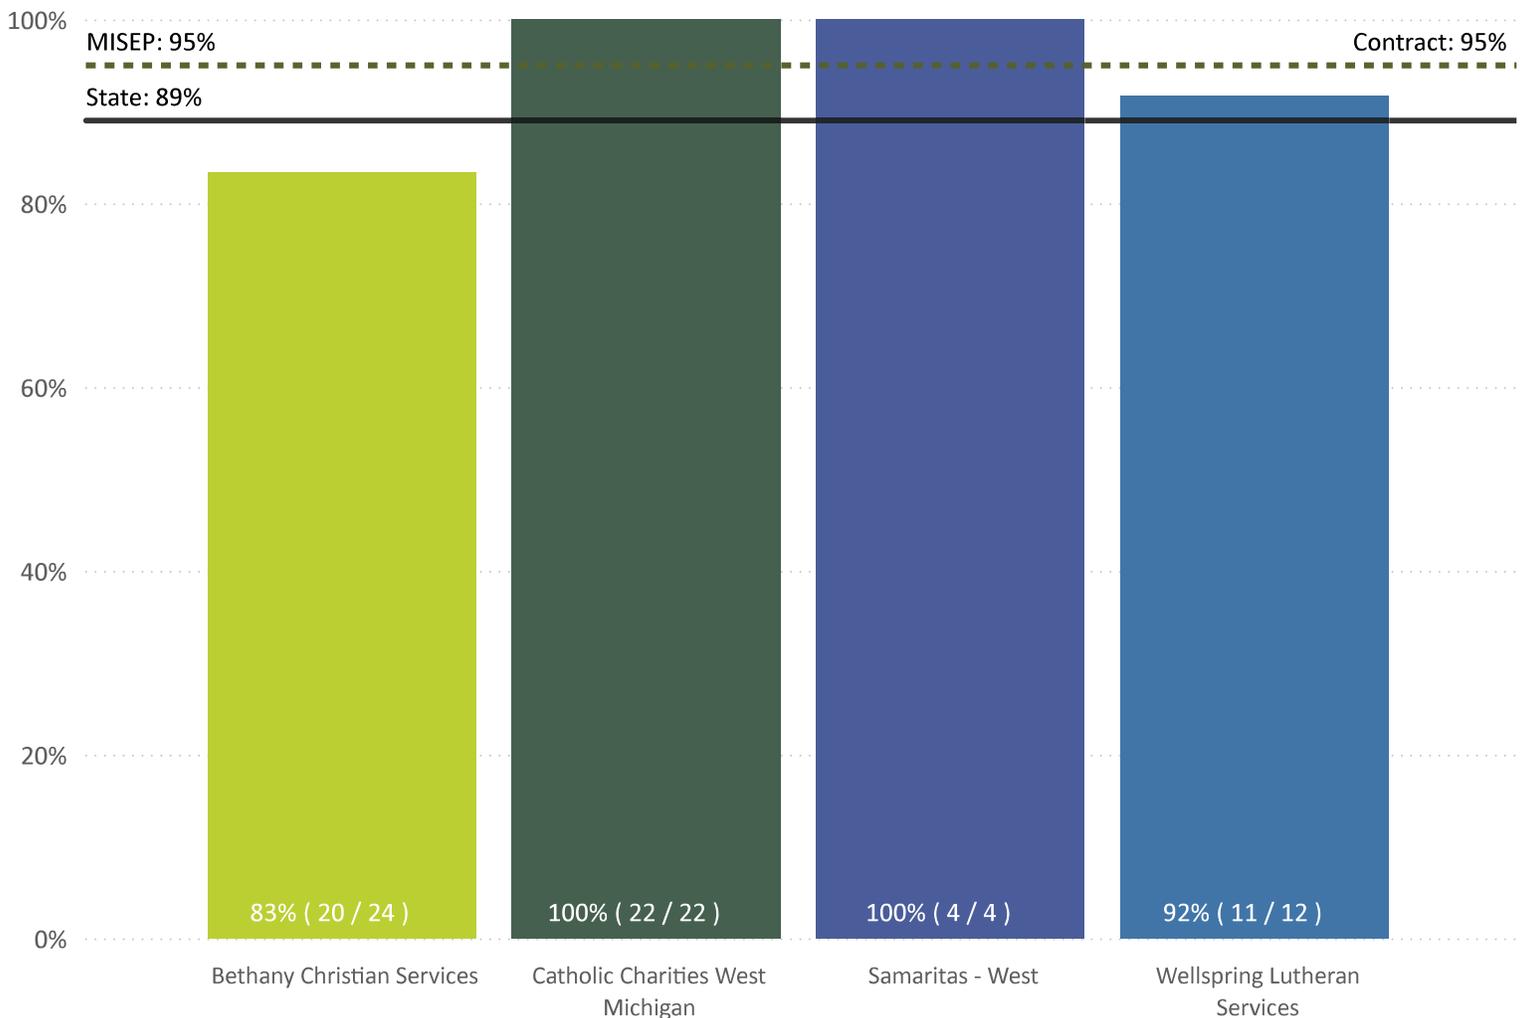

Returned Home Children Contacts

MISEP | Measure Definition: The caseworker must have weekly face-to-face contact in the home with at least 95% of the families (parent/legal guardian and the child) for the first month following reunification or parental placement, with at least one contact each month being a private meeting between the child and the caseworker.

WMPC Contract Amendment | Measure Definition: At least 95% of families that have been reunified or placed in parental home shall have visitation with a caseworker in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Ninety two percent (92%) of families in the WMPC network had caseworker face-to-face contacts in accordance with MISEP requirements. WMPC did not meet the Contract requirement of 95% for contacts made with children who have returned home. However, the network's performance surpassed the state average and showed improvement compared to FY2025 Q2 (88%). Notably, there were no Return Home Contacts recorded for D.A. Blodgett - St. John's.

WMPC Quarterly Performance Report

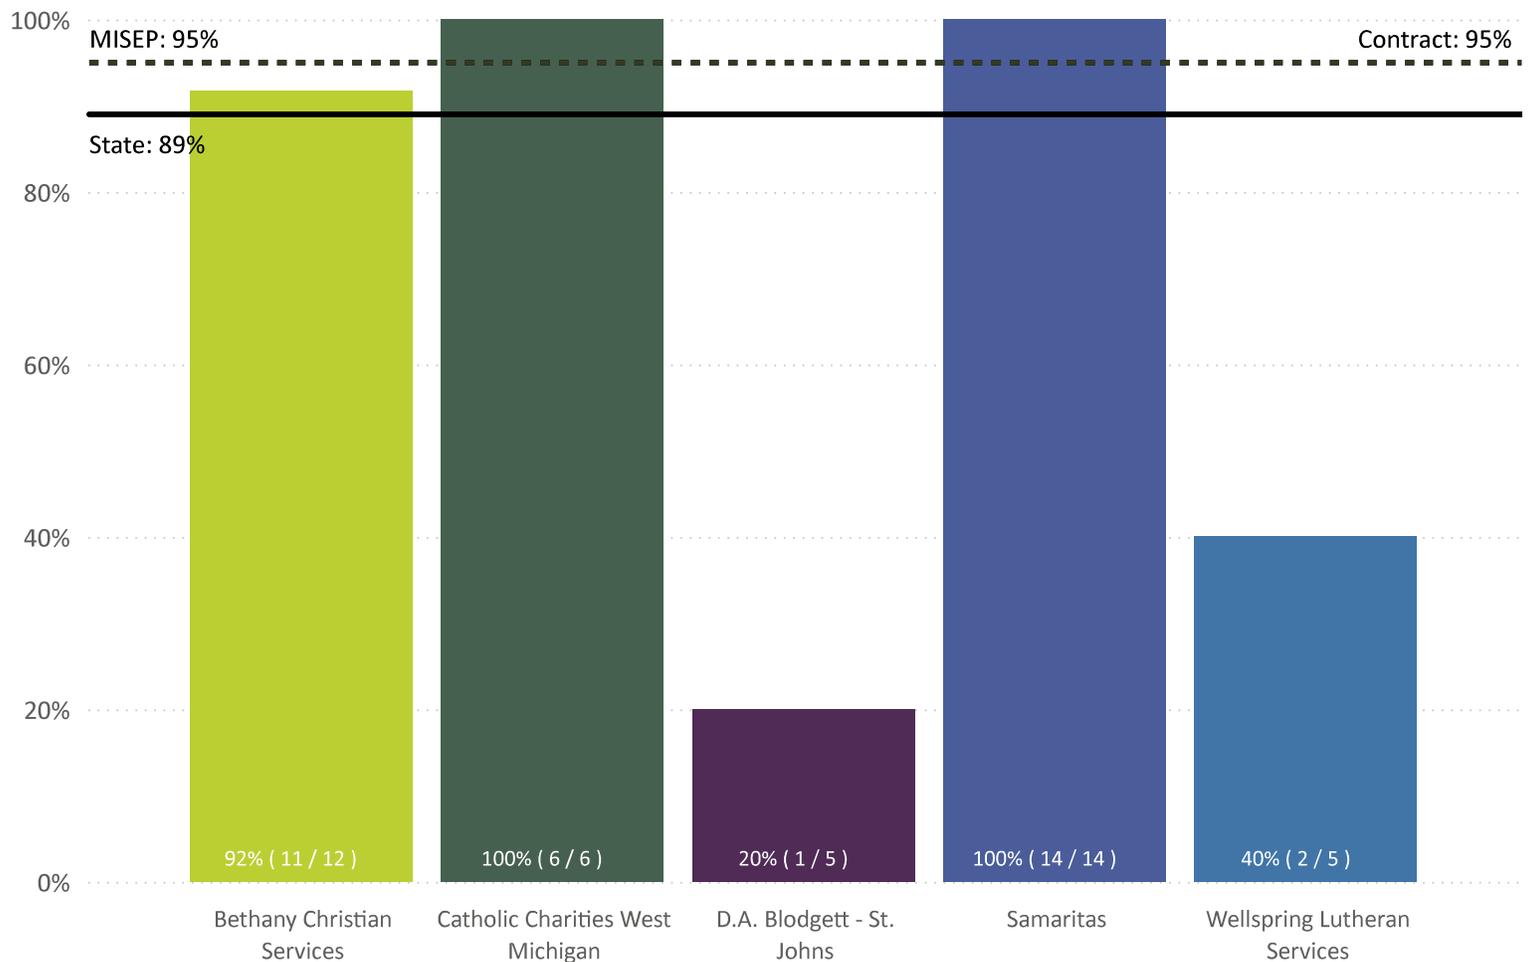

Initial Service Plans

MISEP | Measure Definition: At least 95% of children shall have an initial service plan completed within 30 days of entry into foster care.

WMPC Contract Amendment | Measure Definition: At least 95% of children supervised shall have an initial service plan completed within 30 days of entry into foster care, in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Ninety four percent (94%) of children in the WMPC network had an initial service plan completed within 30 days of entry into foster care. The WMPC Network did not meet the contract requirement of 95% but did surpass the state average of 89%. However, this performance reflects a decline from FY2025 Q2, which stood at 98%. Both Catholic Charities West Michigan and Samaritas exceeded all performance benchmarks.

WMPC Quarterly Performance Report

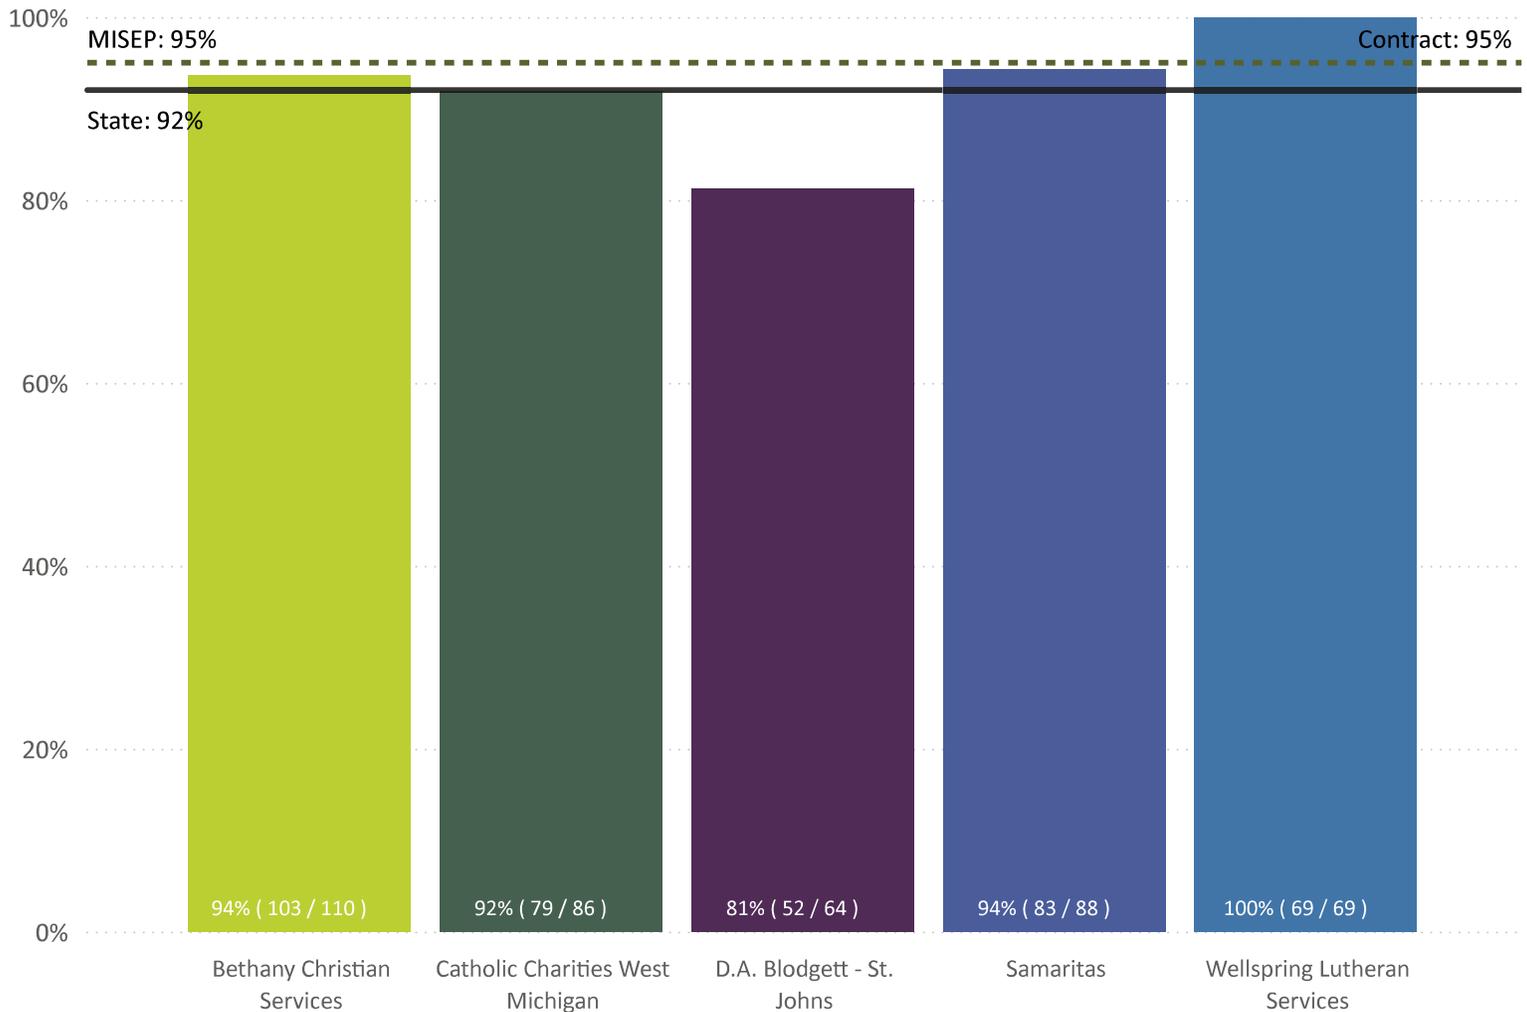

Service Plan Approvals

MISEP | Measure Definition: At least 95% of children shall have a case service plan approved within 14 days of case worker submission to the supervisor for review.

WMPC Contract Amendment | Measure Definition: At least 95% of children supervised shall have a case service plan approved within 14 days of submission to supervisor, in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Ninety three percent (93%) of children in the WMPC network had service plans approved timely. The network did not meet the contract requirements for timely completion of service plan approvals, with performance falling below the FY2025 Q2 level of 95%. Only Catholic Charities West Michigan exceeded all benchmarks.

WMPC Quarterly Performance Report

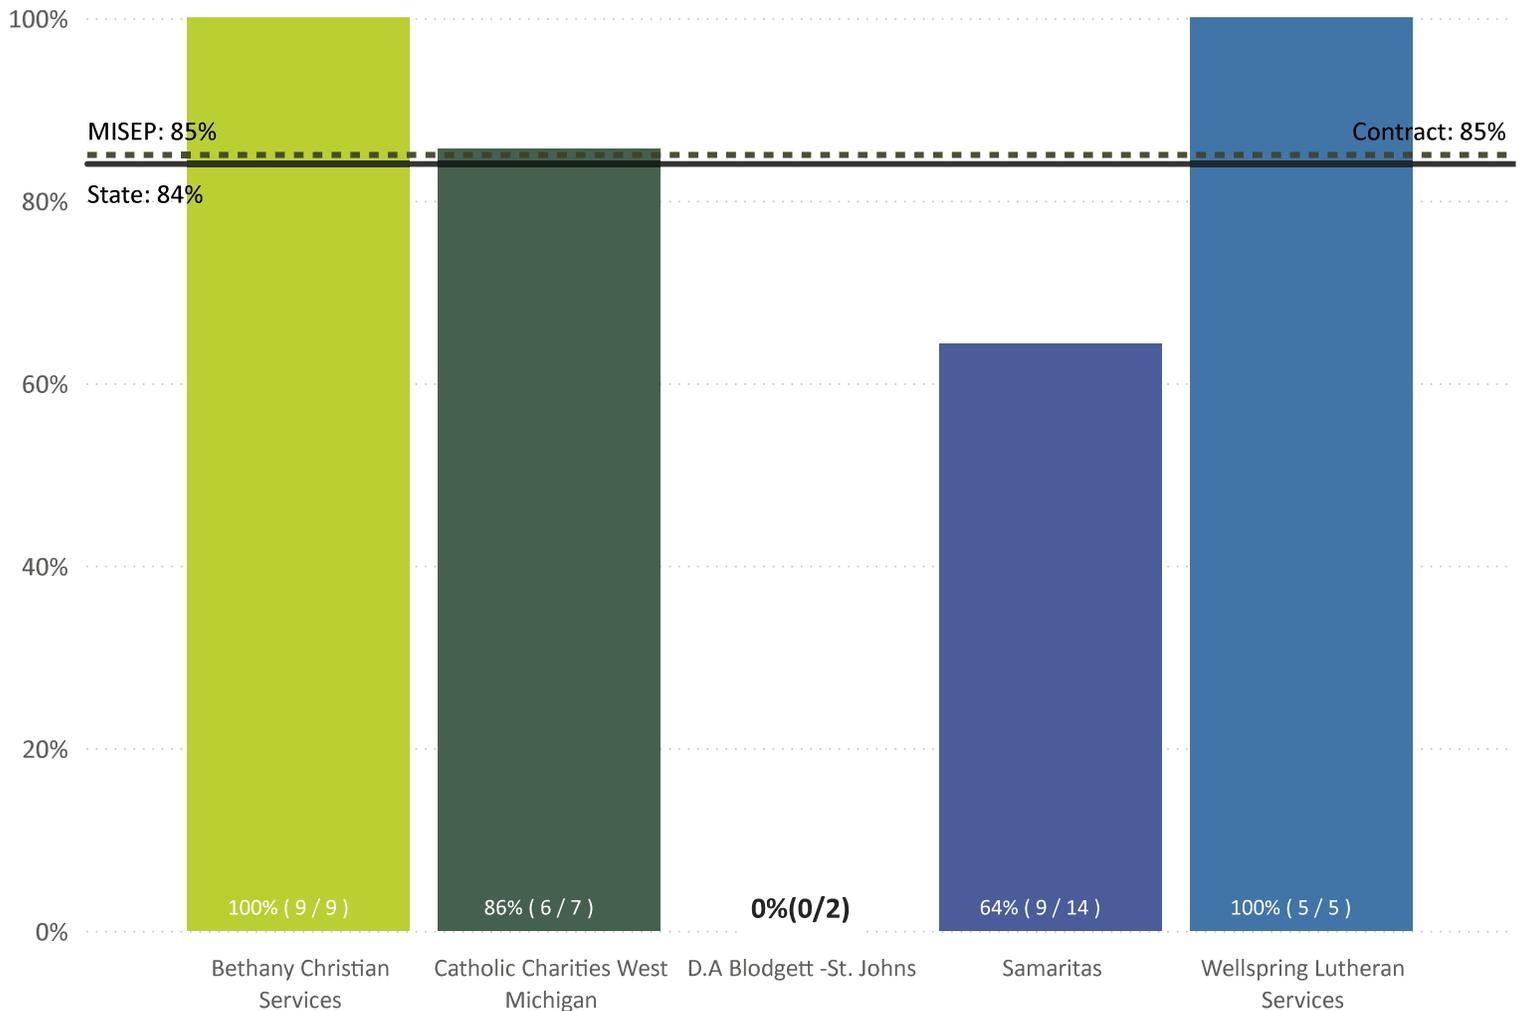

Initial Medical Exams

MISEP | Measure Definition: No fewer than 85% of children will have an initial medical exam within 30 days of removal.

WMPC Contract Amendment | Measure Definition: At least 85% of children supervised shall have an initial medical examination within 30 days of entry into foster care, in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Seventy nine percent (79%) of children had an initial medical exam within 30 days of removal. The WMPC Network did not meet either the contract or MISEP benchmarks. However, Bethany Christian Services, Catholic Charities West Michigan, and Wellspring Lutheran Services exceeded all benchmarks. Notably, D.A. Blodgett - St. John's did not complete a single initial medical exam within the required timeframe.

WMPC Quarterly Performance Report

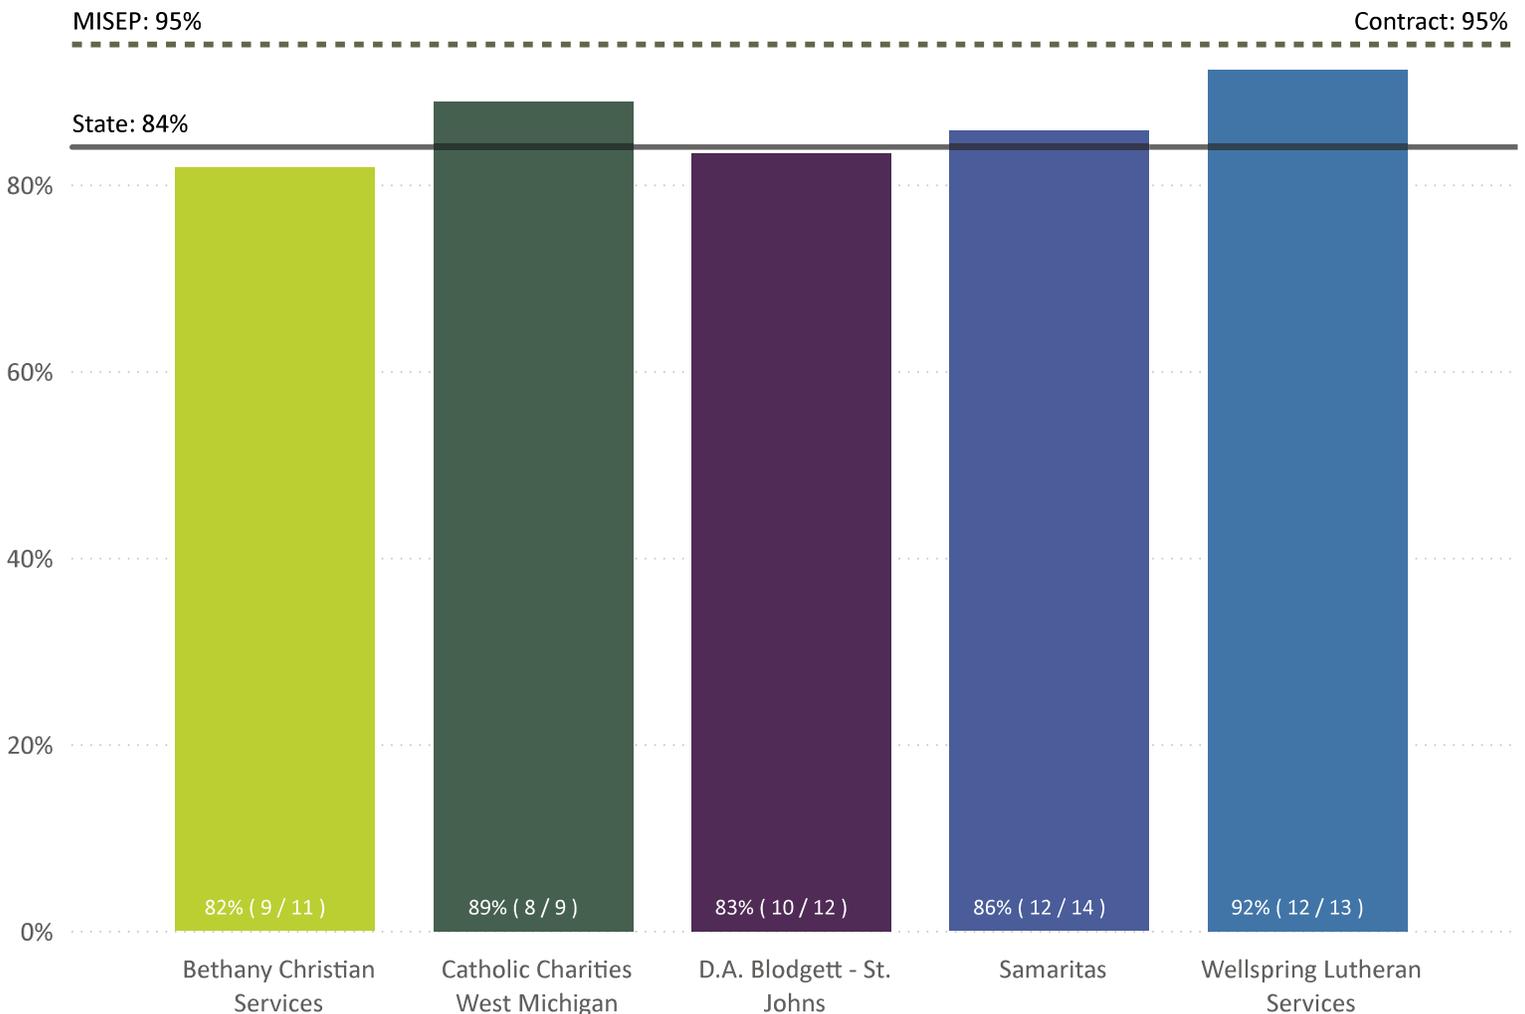

Periodic Medical Exams

MISEP | Measure Definition: Following an initial medical examination, at least 95% of children shall receive periodic medical examinations and screenings.

WMPC Contract Amendment | Measure Definition: At least 95% of children supervised shall have periodic and ongoing medical examinations and screenings according to guidelines set forth by the American Academy of Pediatrics, in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Eighty one percent (81%) of children in the WMPC network received a timely periodic medical exam and screening. The network did not meet the contract requirement of 95% or the state average of 84%, with performance slightly below the FY2025 Q2 level of 83%.

WMPC Quarterly Performance Report

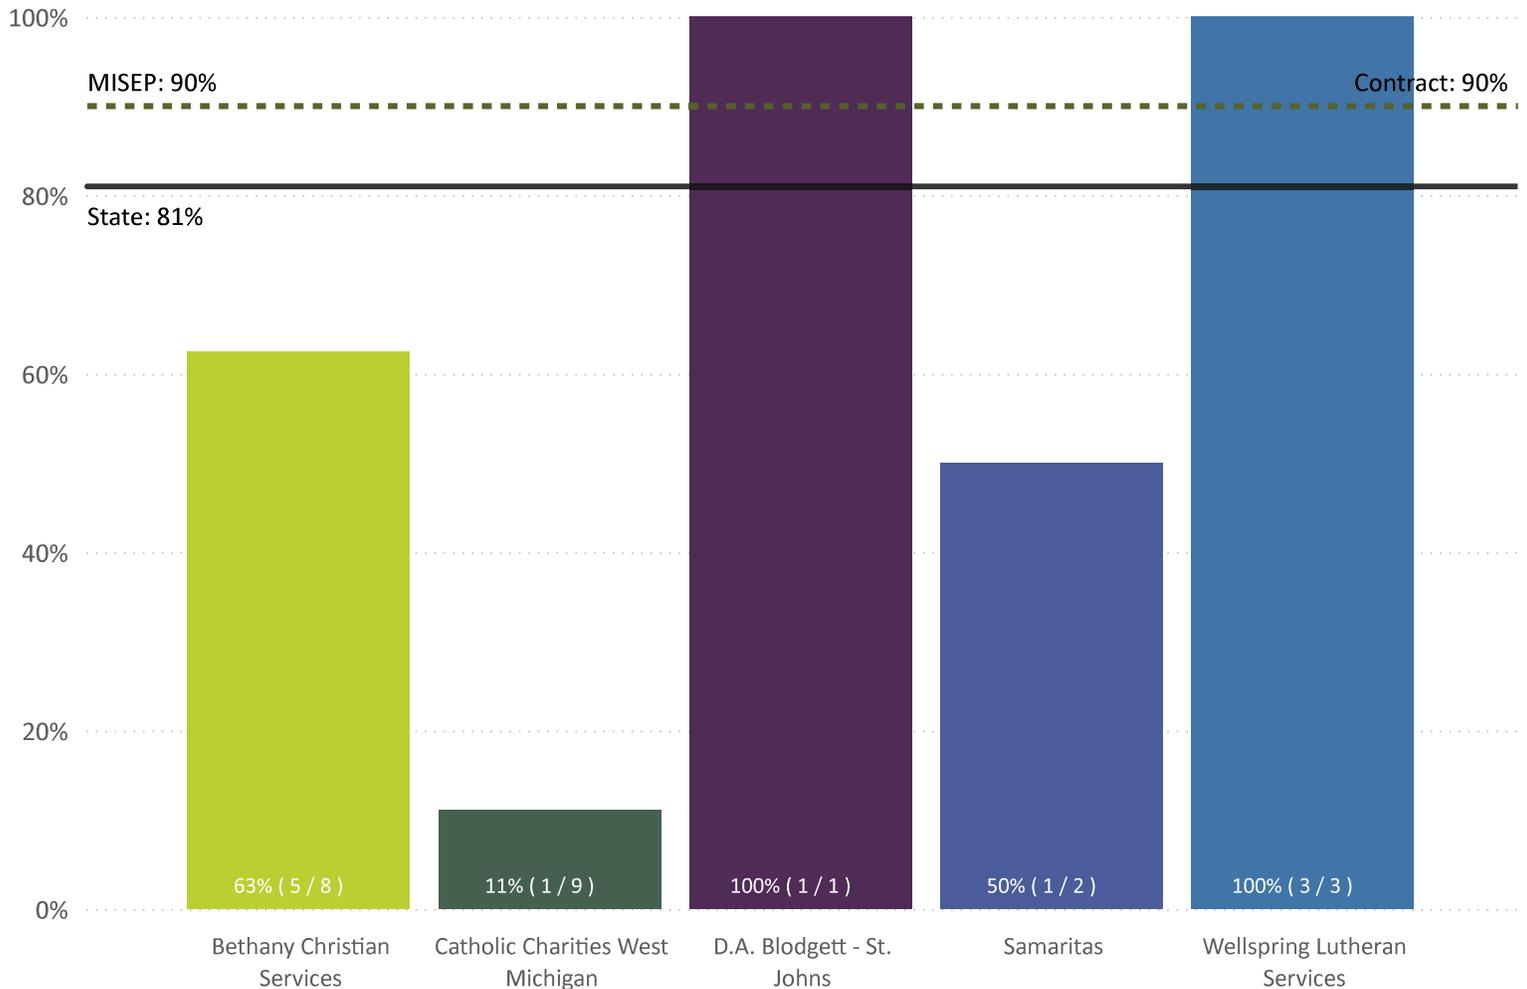

Initial Dental Exams

MISEP | Measure Definition: No fewer than 90% of children shall have an initial dental examination within 90 days of removal unless the child has had an exam within 6 months prior to placement or the child is less than one years of age.

WMPC Contract Amendment | Measure Definition: At least 90% of children shall have an initial dental examination completed within 90 days of entry into foster care, in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 3 Performance

Forty-eight percent (48%) of children in the WMPC Network received an initial dental exam as required by MISEP. The network did not meet the contract benchmark, MISEP standard, or the state average. However, two agencies: D.A. Blodgett - St. John's and Wellspring Lutheran Services exceeded all benchmarks. Performance in FY2025 Q3 declined significantly, falling 49 percentage points below the FY2025 Q2 level of 97%.

Source: MiSACWIS Infoview KC-2604 CFC Medical and Dental Exam Timeliness by Agency, Accessed 6/2025; State Performance: CSA Monthly Management Report, June 2025, Prior 3 Months

FY2025 Q3

WMPC Quarterly Performance Report

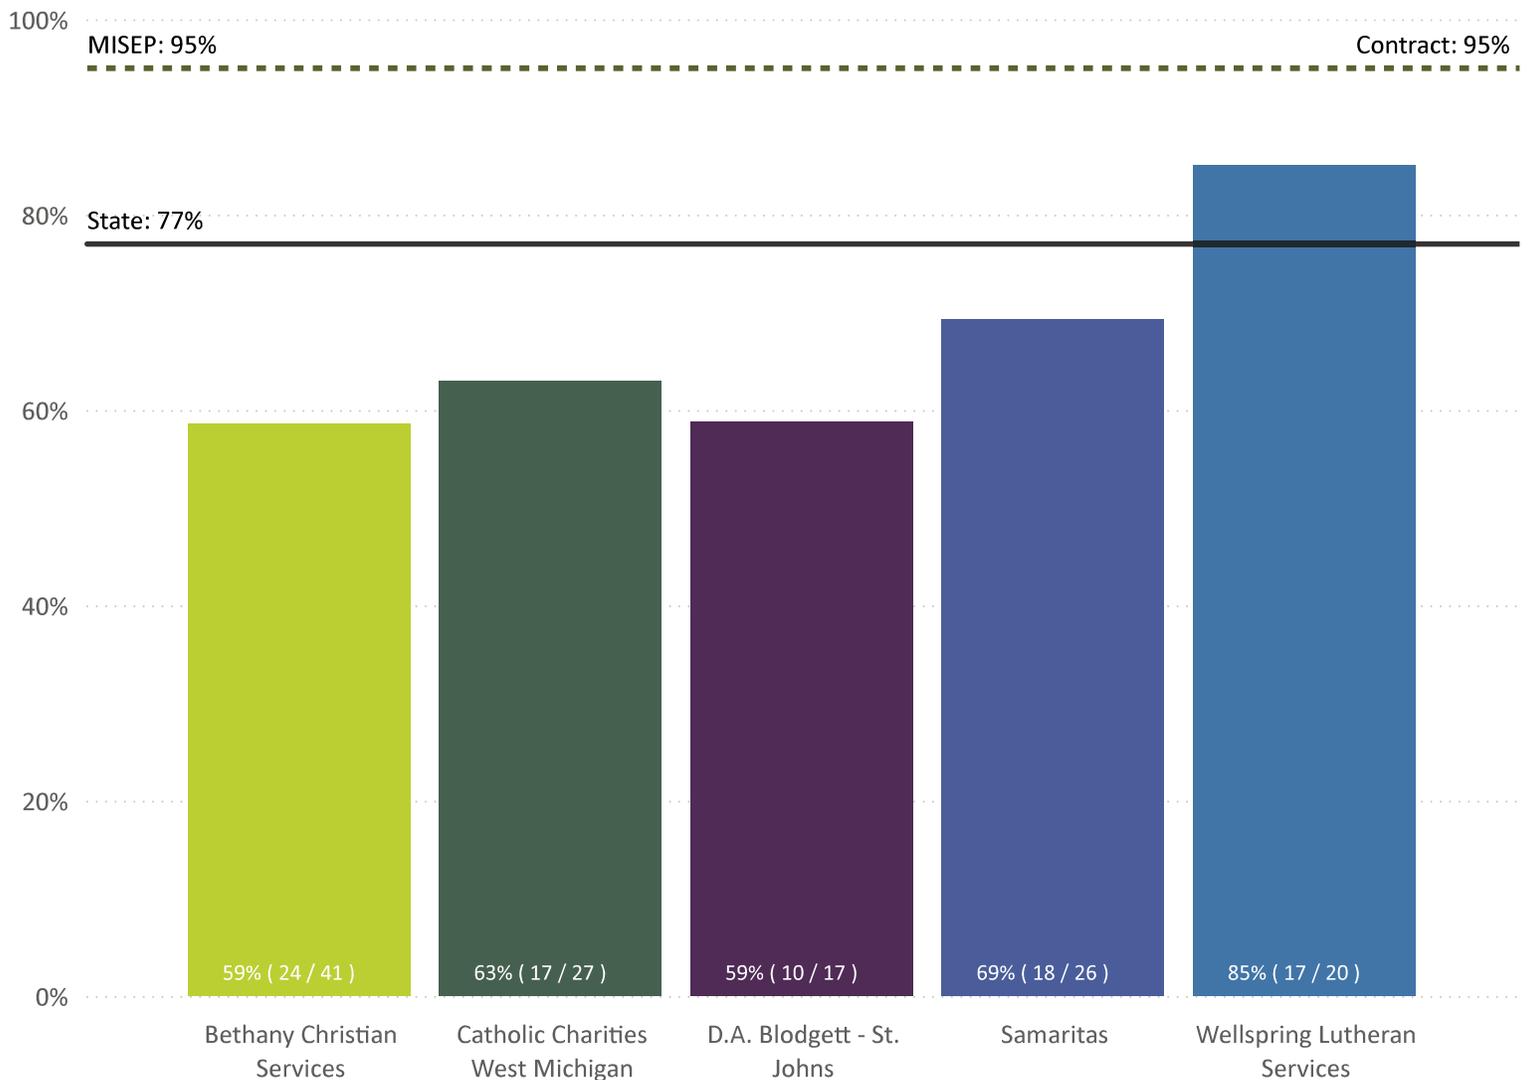

Periodic Dental Exams

MISEP | Measure Definition: Following an initial dental examination, at least 95% of children shall receive periodic dental examinations and screenings.

WMPC Contract Amendment | Measure Definition: At least 95% of children supervised shall receive periodic and ongoing dental examinations and screenings according to the guidelines set forth by the American Academy of Pediatrics, in accordance with the guidelines in FOM 722-06I Policy by the end of FY2025.

Quarter 2 Performance

Sixty six percent (66%) of children in the WMPC network had a periodic dental exam. The WMPC Network did not meet the contract benchmark of 95%, with an overall performance of 66%, which is comparable to the FY2025 Q2 level of 67%. Among the agencies, only Wellspring Lutheran Services exceeded the state average.

WMPC Quarterly Performance Report

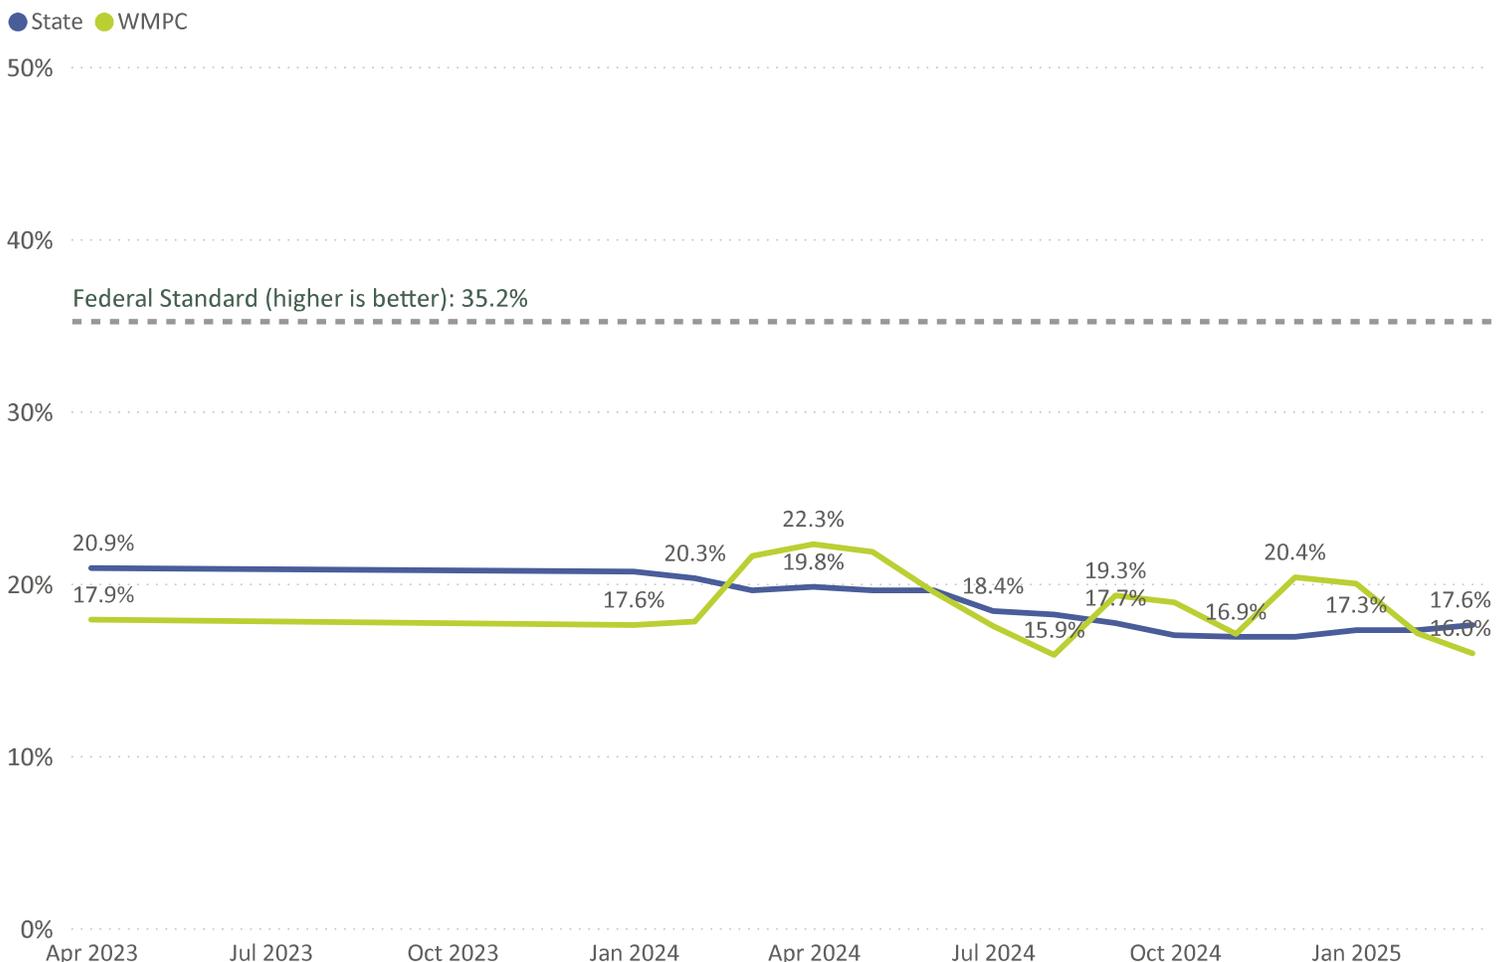

Permanency in 12 months

Federal | Measure Definition: Of all children who enter foster care in a 12-month period, the percentage who are discharged to permanency within 12 months of entering foster care should be at least 35.2%. This percent is the federal standard. Children who are discharged to permanency must not re-enter foster care for the following 12 months to be counted in this measure. **Higher is better for this measure. Note: the most recent performance for this measure is January 2024 as children must remain discharged from foster care for 12 months to be counted.**

WMPC Contract Amendment | Measure Definition: At least 35.2% of children shall achieve permanency within 12 months for children entering foster care by the end of FY2025.

Current Performance

For the most recent exit cohort, 16% of children achieved permanency within 12 months, falling short of both the federal benchmark of 35.2% and the WMPC contract requirement. Over the FY2025 Q3 reporting period, WMPC averaged 17.7%, slightly outperforming the state average of 17.4%. However, both remain well below the federal standard.

FY2025 Q3

Source: NCANDS Exit Cohort :August 1st 2022 to September end 2023, prepared by MDHHS DTMB, generated July 2025

WMPC Quarterly Performance Report

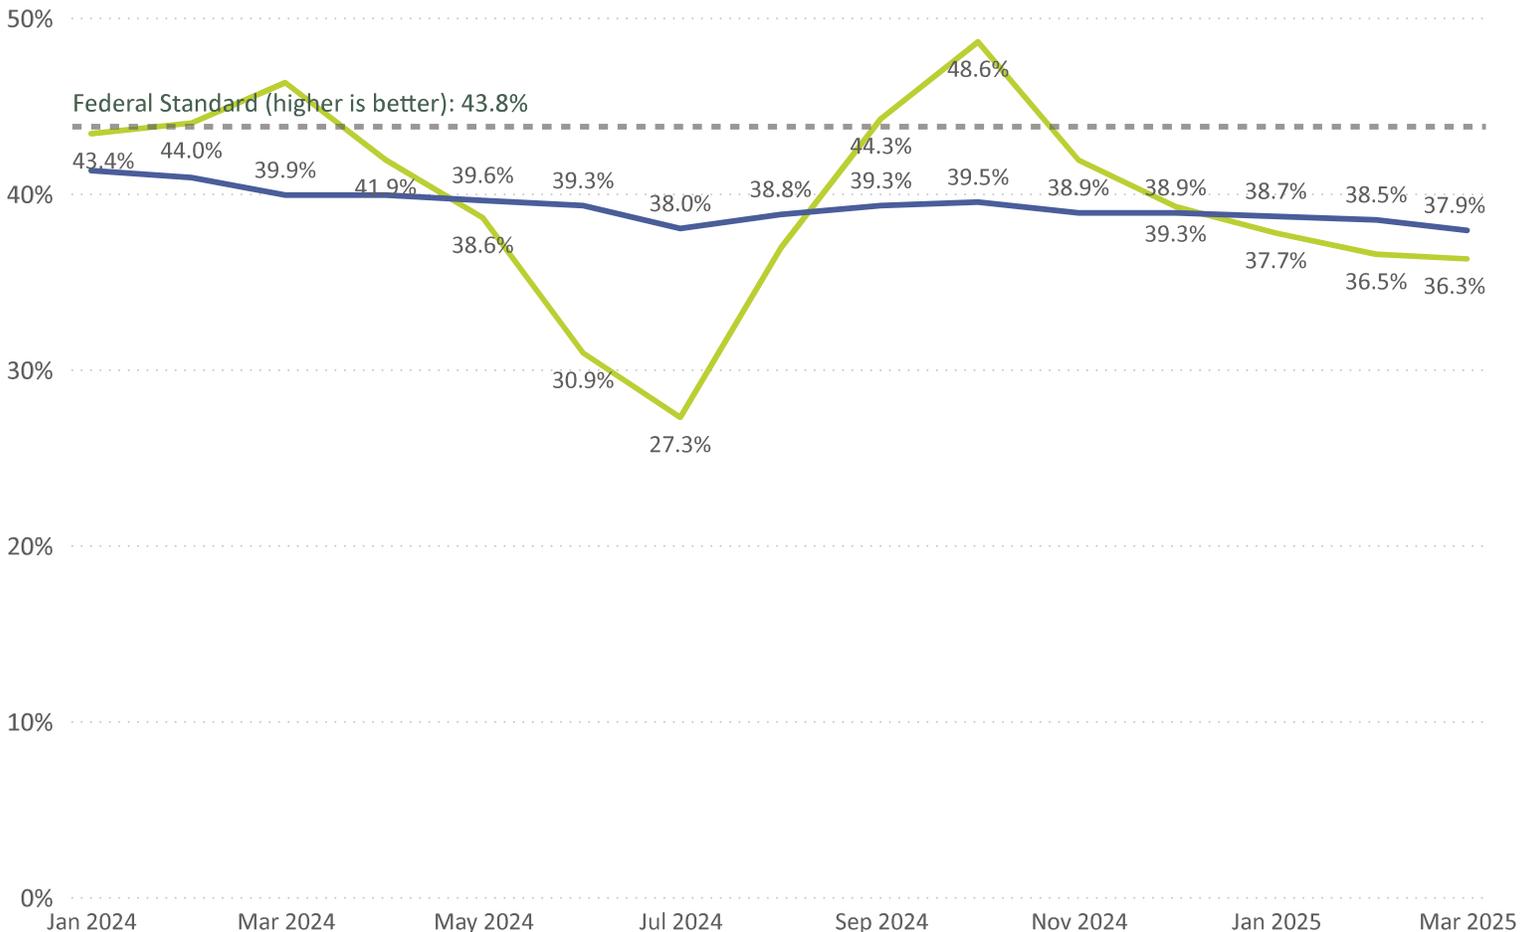

Permanency in 12 months for children in care 12-23 months

Federal | Measure Definition: Of all children in care on the first day of a 12-month period who had been in care between 12 and 23 months, the percentage who are discharged to permanency within 12 months of the first day should be at least 43.8%. This percent is the federal standard. **Higher is better for this measure. Note: the most recent performance for this measure is children that have been in care for 12-23 months since February 2023.**

Current Performance

For the most recent exit cohort, WMPC's performance of 36.3% falls below the federal benchmark for children in care between 12–23 months achieving permanency. During the FY2025 Q3 reporting period, WMPC's performance declined steadily from 37.7% to 36.3%. This remains consistently lower than the state's performance, which has remained relatively stable.

● WMPC ● State

FY2025 Q3

Source: NCANDS Exit cohorts February 1st 2023 to March end 2024 prepared by MDHHS
DTMB, generated July 2025

WMPC Quarterly Performance Report

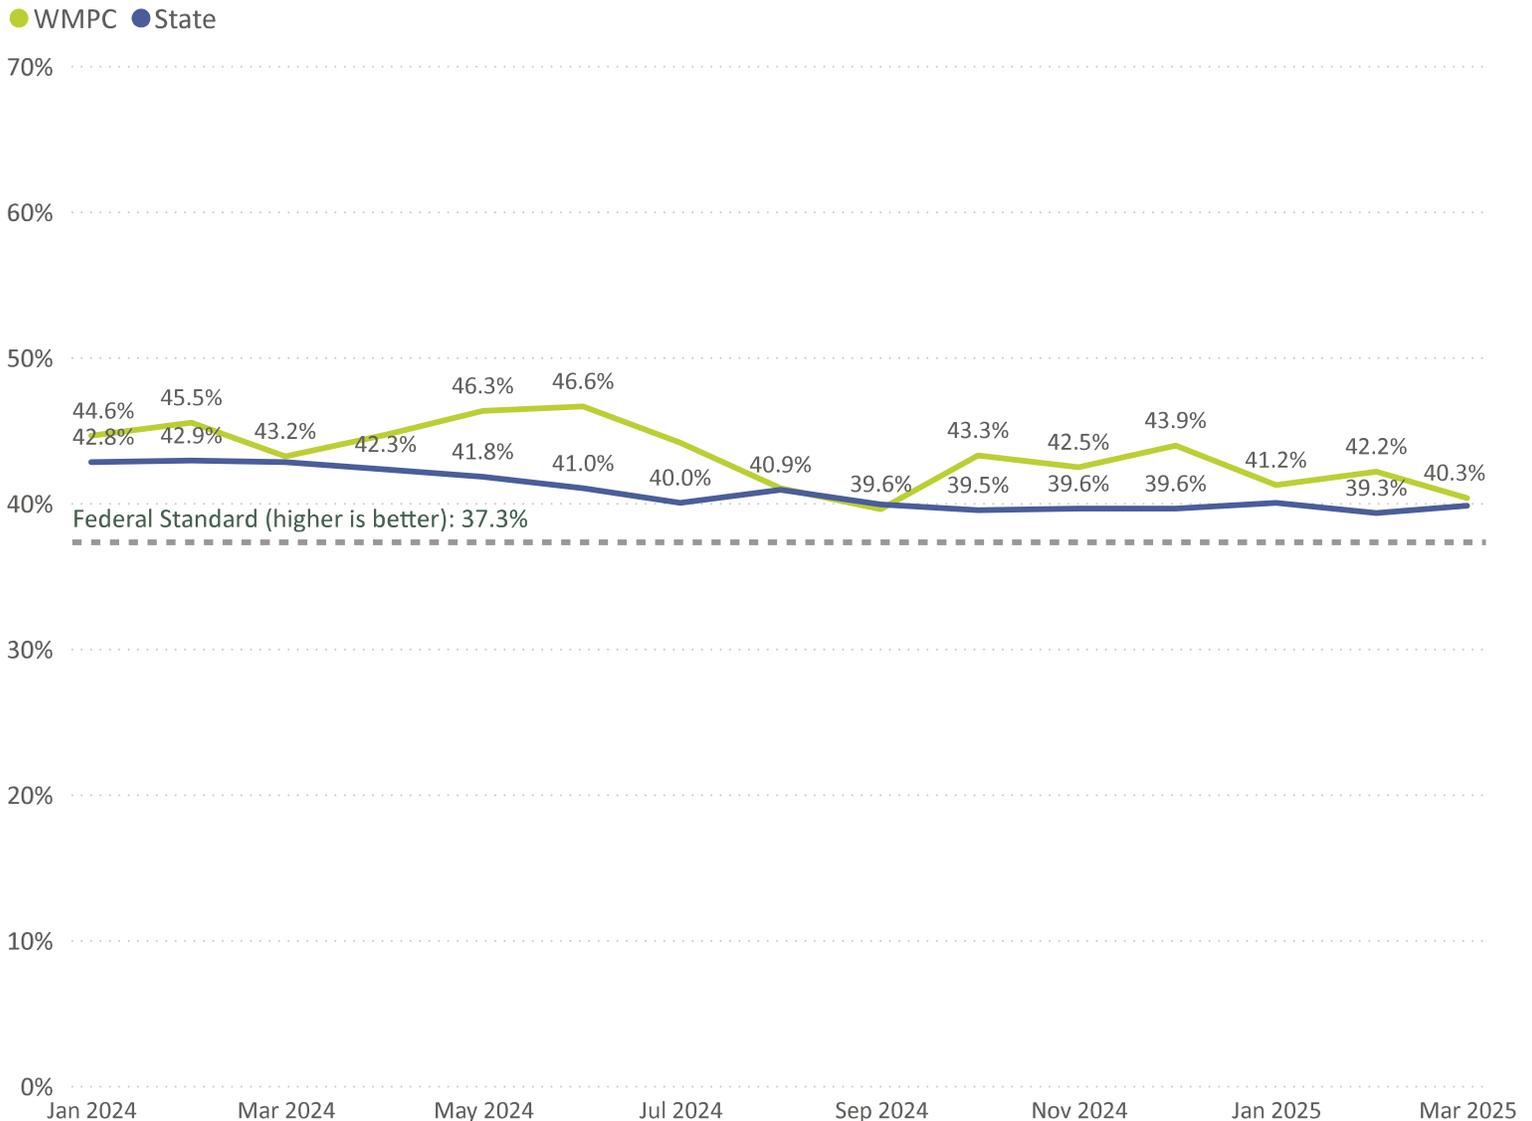

Permanency in 12 months for children in care 24+ months

Federal | Measure Definition: Of all children in foster care on the first day of a 12-month period who had been in foster care for 24 months or more, the percentage who are discharged to permanency within 12 months of the first day should be at least 37.3%. This percent is the federal standard. **Higher is better for this measure. Note: the most recent performance for this measure is children that have been in care for 24+ months since February 2023.**

Current Performance

The WMPC Network continues to exceed both the federal benchmark and the state average. Over the three reporting months, WMPC has demonstrated a steady trend, beginning with a performance of 41.2% in January 2025 well above the federal standard of 37.3% and the state average.

FY2025 Q3

Source: NCANDS Exit cohorts February 1st 2023 to March end 2024, prepared by MDHHS DTMB, generated July 2025

WMPC Quarterly Performance Report

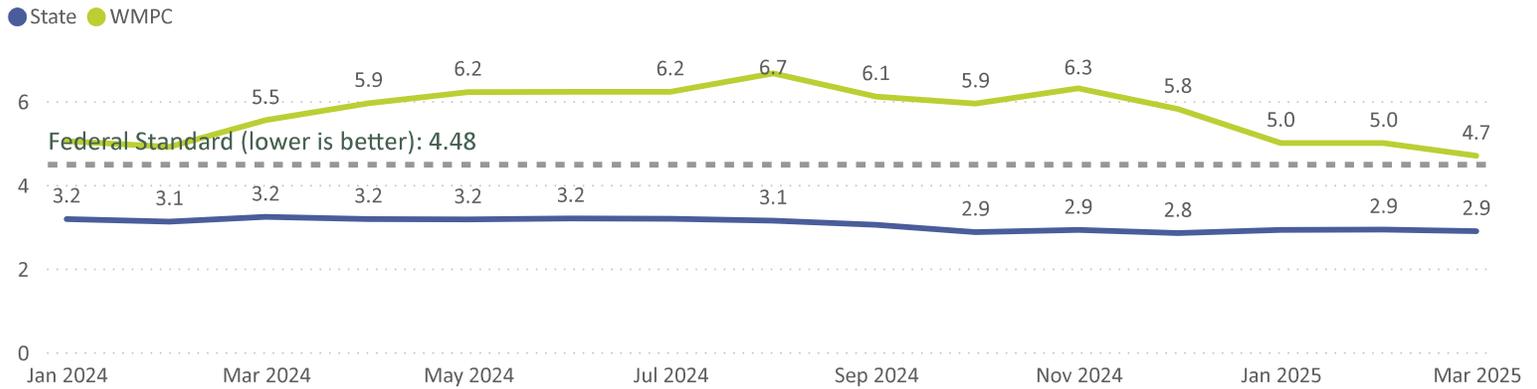

Placement Stability

Federal | Measure Definition: Of all children who entered care in a 12-month period, the rate of placement moves per 1,000 days of foster care should be at most 4.48. This rate is the Federal standard. **Lower is better for this measure.**

Current Performance

WMPC has not met the federal standard for this measure, which is 4.48 placement moves per 1,000 days in care. WMPC's current rate stands at 4.7, which remains higher than the state's performance of 2.9. However, there has been notable improvement in placement stability during the FY2025 Q3 reporting period, with the rate decreasing steadily from 5.8 in FY2025 Q2 to 4.7 in FY2025 Q3.

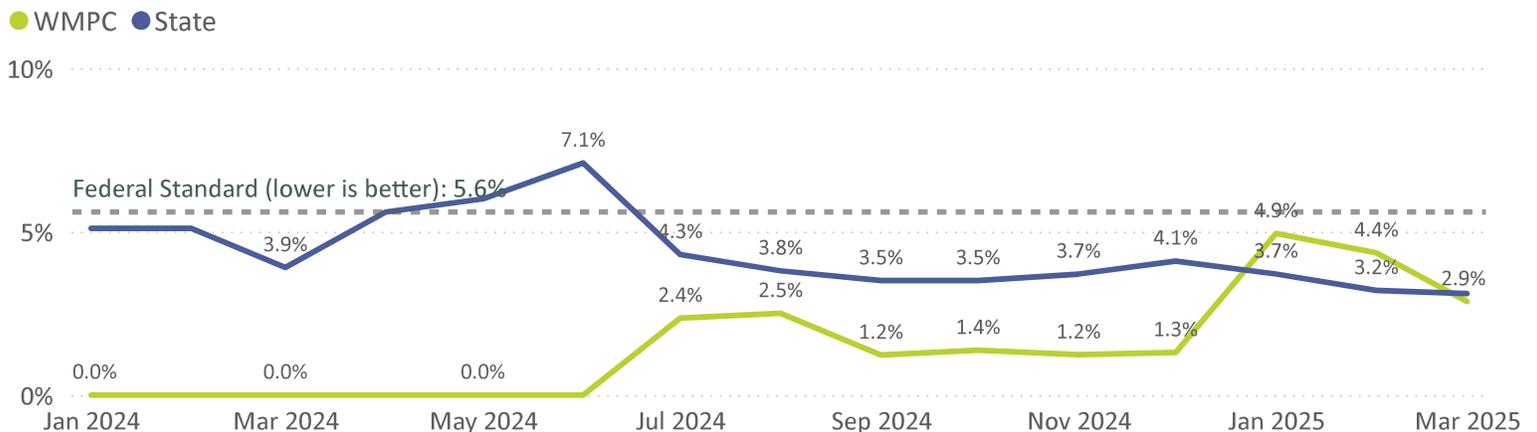

Re-entry into foster care within 12 months

Federal | Measure Definition: Of all children who enter care in a 12-month period, who discharged within 12 months to reunification, living with relative, or guardianship, the percent who re-enter care within 12 months of their discharge should be at most 5.6%. This percent is the Federal standard. **Lower is better for this measure.**

Current Performance

WMPC met the goal for this measure and continues to consistently outperform the federal standard for re-entry into foster care within 12 months. However, the FY2025 Q3 reporting period shows a steady increase in re-entry rates, peaking at 4.9%, compared to 1.4% in FY2025 Q2. This indicates a rising trend in re-entry cases within the WMPC Network.

FY2025 Q3

Source: NCANDS entry cohorts August 1st 2022 to September end 2023, prepared by MDHHS DTMB, generated July 2025

WMPC Quarterly Performance Report

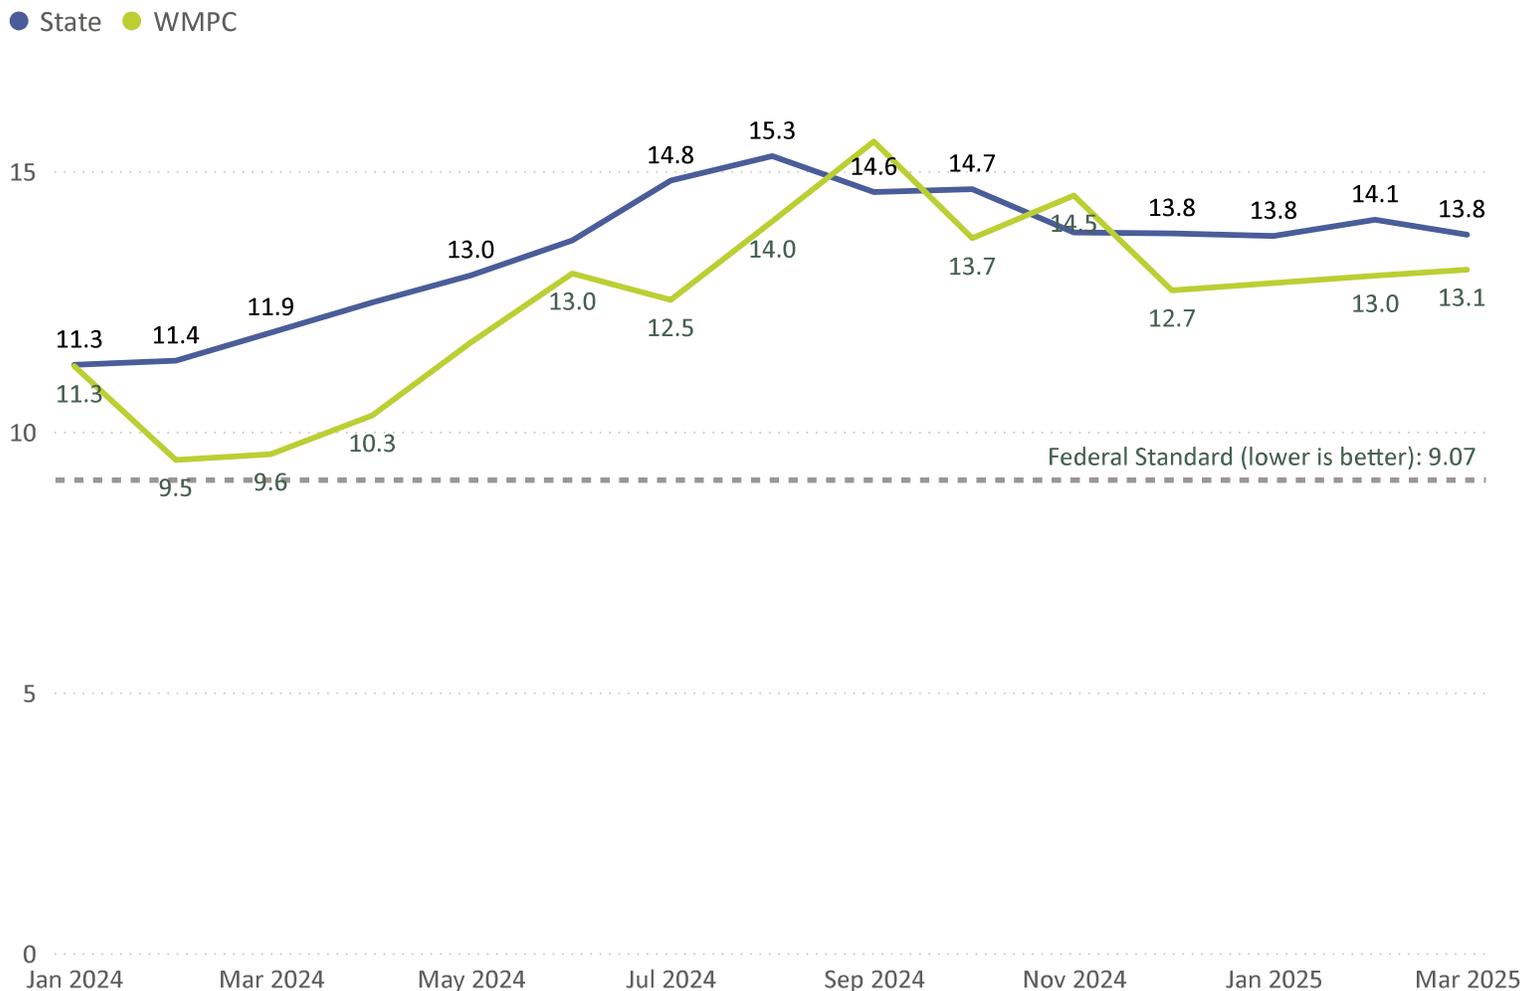

Maltreatment In Care

Federal | Measure Definition: Of all children in foster care during a 12-month period, the rate of victimization per 100,000 days of foster care should be at most 9.07. This rate is the federal standard. **Lower is better for this measure.**

Current Performance

The WMPC Network did not meet the federal standard of 9.07 maltreatment incidents per 100,000 days in care but did outperform the state average. During the FY2025 Q3 reporting period, there was a notable reduction in maltreatment in care, with a peak rate of 13.1 per 100,000 days down from 14.5 in FY2025 Q2. While the federal benchmark was not achieved, the downward trend reflects performance improvement and continued outperformance relative to the state.

FY2025 Q3

Source: NCANDS Event Period February 1st 2023 to March end 2024, prepared by MDHHS DTMB, generated on July 2025.
